TRAIN YOUR TEAM IN YOUR PRACTICE!

CUSTOMISED TRAINING TO SUIT YOUR NEEDS

Sick of sending your staff multiple courses to cherry pick the relevant information for your practice?

Tired of spending money and time on content that doesn't address your issues?

Why not tailor the training to suit *your* team's needs?

At Momentum, we understand that not all practices have the same challenges, which is why we work with you to develop the content for a customised In Practice Training. We make sure that the training is of value to you, is applicable to your practice and is relevant to your interests.

You can train your entire team in one go, or target the training for specific roles in the practice. Custom-designed trainings are an affordable way to teach your team what you want taught.

PLUS! As trainings are held in *your* practice, there's no need for staff travel - thereby limiting disruption to your business.

- **AND MORE!**
We can create training around any of your unique needs!

Our Managing Director, **Dr Toni Surace**, took her practice through the Momentum Management Program in 2008 and loved what it did for her team and her practice growth so much that she bought the company! Toni has owned Momentum since 2012 and has developed and grown the content to work in dental practices today. She has used her further studies in Digital Marketing, Positive Psychology and Emotional Intelligence to expand the curriculum and to give practices the knowledge they need to thrive in the dental profession today.

“The Momentum team and I are honored to be involved with hundreds of practices across Australia and New Zealand. We love helping you grow both personally and professionally.

We really enjoy seeing you and your teams transform with our program. If you are serious about dental business then you need a team behind you that is well established, understands the profession and has the energy and expertise to help you grow. That's Momentum!”
