WE GET YOU GROWING.

What is the Momentum⁺ Program?

Momentum⁺ is a dental practice growth acceleration program. It combines practice management training, strategic marketing and high-end clinical training, guided by advanced analytic practice measuring software for cost effective growth.

You and your team will learn the skills to make your business thrive in this new competitive age.

Momentum Management has been teaching dental practices in Australasia on how to run their business efficiently and effectively for more than 25 years.

You will master business skills, communication skills, leadership techniques, marketing, and team building.

On average, practice that work with Momentum achieve 40% or more increase in production.

We know you will feel less stressed, more organised and focussed, make more profit and have more time off.

THE 2 YEAR PROGRAM

The Momentum Management Program includes eight workshops, spread across the duration of the 24-month membership period. Each workshop runs for two days. Of these eight workshops, four are designed for practice owners' attendance only, and four are designed to be attended by the entire team.

In the workshops you will learn advanced skills and systems to help your business flourish. Your monthly coaching sessions will be guided by your individual performance and practice results using our advanced MiPractice analytics system. Your coach will help hold you and your team accountable for implementing systems in your practice and driving you towards your goals.
